

DATEX II

DATEX II Create exchange service

Jonas Jäderberg, Sweden

6TH FORUM
WEBINAR SERIES

What do we need for a Web service

- Decide exchange pattern

DATEX II

6th Forum Webinar series

Demo

- Let's create a snapshot pull webservice
- Download [WSDL](#)
- Get exchange schema [Webtool](#)
- Get payload schema [Webtool](#)
- Place them in same folder or adjust file paths
- Use SoapUI to
 - Validate our WSDL and schema
